investment@um.krakow.pl

The Centre is intended to create a multifunctional complex with its basic dedication to conference/congress and concert functions, including a congress and concert hall intended for approximately 2,500 spectators and the accompanying functions: hotel, trade and exhibition and administrative and office.

The designed investment is located south of the Old Town, in the corner of the Grunwaldzkie Roundabout, on an area limited by Monte Cassino Street from the north, Marii Konopnickiej and Barska Streets from east, Wierzbowa Street from south and Bułhaka Street from the west.

Such an advantageous location in the direct vicinity of the heart of the historical centre provides a unique view of Krakow's panorama from the opposite bank of the Vistula River; from Wawel to the Skałka Church and is a key location on walking routes connecting the Vistula Boulevards with the Twardowskiego Rocks (Skały Twardowskiego) and the so called "Vistula Saloon" area. It is worth mentioning that the Centre to be developed next to the Grunwaldzkie Roundabout will be perfectly accessible from the key areas of the city.
